

PRELIMINARY AMENDMENT  
APPLN. NO.: NATIONAL STAGE OF PCT/JP00/4383

wherein the width of the plateau-forming top surface is random.

15. (Amended) The interlayer for a laminated glass according to Claim 14,  
wherein segmenting walls are arranged at equal intervals.

25. (Amended) The interlayer for a laminated glass according to Claim 13,  
wherein the trough-like geometry is constant in sectional area while the  
segmenting wall has a depth distribution of troughs having a depth of not less than 5% of the  
maximum trough depth.

27. (Amended) The interlayer for a laminated glass according to Claim 25,  
wherein the trough-like geometry is provided in parallel with the direction of flow  
of the interlayer for a laminated glass.

28. (Amended) The interlayer for a laminated glass according to Claim 1,  
wherein the thermoplastic resin sheet is a plasticized polyvinyl acetal resin sheet.

30. (Amended)- The interlayer for a laminated glass according to Claim 1,  
wherein an angle between the concave trough and a direction of extrusion of said  
thermoplastic resin sheet is less than 25°.

31. (Amended) A laminated glass  
obtained by interposing the interlayer for a laminated glass according to Claim 1,  
between at least one pair of glass sheets and consolidating them into an integral unit.

Please add the following new claims 32-36.

32. (New) The interlayer for a laminated glass according to Claim 1

PRELIMINARY AMENDMENT  
APPLN. NO.: NATIONAL STAGE OF PCT/JP00/4383

47 2.5 $\mu$ .

33. (New) The interlayer for a laminated glass according to Claim <sup>12</sup>2,

cmA wherein a width of the plateau-forming top surface is not less than 20% of a pitch of convex portions.

34. (New) The interlayer for a laminated glass according to Claim <sup>13</sup>4,

wherein the thermoplastic resin sheet is a plasticized polyvinyl acetal resin sheet.

35. (New) The interlayer for a laminated glass according to Claim <sup>14</sup>4,

wherein an angle between the concave trough and a direction of extrusion of said thermoplastic resin sheet is less than 25°.

36. (New) A laminated glass

obtainable by interposing the interlayer for a laminated glass according to Claim <sup>15</sup>2/<sup>1</sup>, between at least one pair of glass sheets and consolidating them into an integral unit.
